

## HOW ANOTHER CLIENT BENEFITTED

“ I am very impressed with the **ALPHA S-3V** mask. The institute employs staff from all over the world and finding a mask to cover the wide variety of face shapes has been problematic in the past. I have since tested at least 60 staff with the ALPHA S-3V mask and all have achieved a 100% pass rate. The ALPHA S-3V is also much easier to fit for first time users as there is no metal nose-piece to mould. ”

**NEIL BREW** SITE RPS AND H&S ADVISOR, BABRAHAM INSTITUTE

The Babraham Institute is a world-class research institution, situated at the heart of the Babraham Research Campus, near Cambridge.

Their mission is to be an international leader in research focusing on basic cell and molecular biology with an emphasis on healthy ageing through the human lifecycle.

The Alpha S has been specifically designed to ensure an excellent fit for the smaller face. The unique inner face seal helps maintain a close and snug fit around the chin area which is generally regarded by experienced fit testers to be the main weakness on standard design disposable respirators.

- + Unique full inner face seal
- + Preformed nose bridge removes the need for regular adjustment
- + Four point head strap adjustment
- + Conforms to EN 149:2001+A1:2009
